TACTICAL

CZ SCORPION 3+ PISTOLS

CZ SCORPION 3+ 7" PISTOL

CALIBER | 9MM

The new CZ Scorpion 3+ Pistol is the next variation of the latest Scorpion 3+ family of firearms. Like all Scorpion 3+ models, the 7.8-inch pistol boasts a suite of customer-requested features and performance upgrades. The redesigned 9mm pistol includes improved ergonomics and smooth operation. Furthermore, its advanced materials are more rigid and lighter than ever before. The Scorpion 3+ Pistol balances a compact size with the better ballistic performance expected from a longer barrel.

The new Scorpion 3+ Pistol uses a 7.8-inch barrel for outstanding ballistic performance, squeezing more velocity from the popular 9mm cartridge than standard pistol-length barrels.

Ambidextrous controls are the gold standard in modern firearms, and the Scorpion 3+ includes both an ambidextrous AR-style mag release and bolt catch/release. The CZ engineers repositioned the releases, making them easier to find and ultra-intuitive to operate – shorting any learning curve for those transitioning from AR-style platforms.

CZ SCORPION 3+ MICRO PISTOL

CALIBER | 9MM

Building on our most popular firearm, the CZ Scorpion 3+ is an enhanced Scorpion model featuring upgrades most requested by our customers. With AR-style mag release, improved sights, handguard, slimmed down frame, and lower receiver, the Scorpion 3+ offers the operator an exceptional shooting experience on the range, as well as confidence and security at home.

- **Ambidextrous mag release.** The new mag release is now AR-style and accessible on both sides.
- **Ambidextrous bolt catch.** The new location of the bolt catch allows for the user to operate it left or right handed.
- **Upgraded grip design.** The new ergonomic grip design makes it a more comfortable shooting experience for the user.
- **Enhanced sights.** The adjustable four aperture aluminum sights are updated to deliver lower 1/3 co-witness with popular red dots, providing a better sight picture and reliable backup.

- **Redesigned polymer handguard.** The M-LOK® handguard is now upgraded from aluminum to polymer to reduce heat transfer and for a more comfortable shooting experience.
- **Improved upper and lower receiver.** The upper receiver has been modified to allow for better options when attaching different accessories to the endcap. The redesigned magwell allows the user more room on the handguard for large or gloved hands.
- **New magazines.** The 3+ magazines are backward compatible with the Scorpion EVO 3.

CZ SCORPION 3+ CARBINE

CALIBER | 9MM

First released to the US public in pistol form – the new Scorpion 3+ Carbine has been developed based on consumer feedback and military and law enforcement personnel. This rifle rounds out the popular Scorpion 3+ semi-automatic firearm platform.

SKU	MODEL	CALIBER	GRIPS	MAG. CAPACITY	OVERALL LENGTH (IN)	BARREL LENGTH (IN)	WEIGHT (LBS)

CZ *BRENS 2 MS*

CZ *BREN 2 MS PISTOL*

The next generation of the Bren, the Bren 2 Ms makes first landfall in the US in pistol form with multiple barrel lengths and two chamberings.

Whereas the 805 Bren was designed to a specific set of requirements set out by the Czech military, the Bren 2 is a clean-sheet design. With a bevy of changes, the most noticeable is sure to be the strict weight-loss regimen that the Bren 2 has undergone. With a trimmed-down aluminum receiver and a lower made from carbon fiber-reinforced polymer, the result is a robust but substantially lighter gun.

Gone is the reciprocating charging handle, replaced with one that stays stowed in the forward position until it is needed. Swappable from side to side, it does double duty as a forward assist. Also added is an AR-style bolt catch/release system that is mirrored on both sides of the firearm, as well as a catch/release nestled into the front of the trigger guard. The magazine release and safety are also ambidextrous and located in very familiar locations for anyone versed in the AR platform.

Chambered in 223/5.56x45 and 7.62x39, each is available in several barrel lengths. AR-15 style magazines are used for 223/5.56x45 variants, whereas in 7.62 the factory’s magazines are used to ensure last round hold-open and consistent feeding. All variants are swappable to different barrel lengths and chamberings and also feature a modular forend that can be swapped to different lengths.

In pistol form, the Bren 2 Ms comes with a flush rear plate that has the provision for attaching an AR-style buffer tube for the installation of an arm brace, cheek rest or similar pistol stabilizing device. For those who wish to SBR, a Carbine buffer tube and stock can be installed or the entire rear plate can be removed and replaced with a factory folding/adjustable stock.

CZ *BREN 2 MS CARBINE*

Based on the select-fire Bren 2, this handy rifle operates via a short-stroke gas piston system with a return spring contained within the action itself. Without the need for a buffer tube, it features a folding, adjustable stock. At 35.6 inches long, folding the stock brings its length down to just 28 inches — making it much easier to transport or store.

A true lightweight, the Bren 2 has an aluminum upper and a lower made of carbon fiber composite. The ‘Ms’ designation means that it employs a modular forend that can be swapped to different lengths or styles based on user preference/need.

HANDGUNS

CZ P-10 PISTOLS

CALIBER | 9MM

Shown on the opposite page are the P-10 S, C and F in their Optics-Ready configurations and our newest addition to the CZ line, the P-10 M. Shipped with a blank fill plate, users can purchase mounting plates for the Trijicon RMR and Leupold DeltaPoint Pro, with more plates coming available down the road. Also available are co-witness sights designed specifically for each of those optic systems, as well as specific suppressor-height sights.

All P-10s now feature a swappable mag release starting in 2019. With a change in style as well as geometry, this new mag release is smoother than the ambidextrous release it replaces. A few minutes work reverses the release so that lefties can hit it with their thumb from the right side of the pistol.

The two major features that put the original P-10 C on the map were the superb ergonomics and the crisp, light trigger. These updated pistols are no different — they still feel right in the hand much like the classic CZ 75, and their trigger feel is at the top of the class when it comes to striker-fired pistols. With a solid wall, a clean break and a tactile, audible reset, the P-10’s trigger leaves many other striker guns in its dust.

Built to withstand the rigors of military use, its fiber-reinforced polymer frame and hardy nitride finish are made for the daily grind. A generous trigger guard allows use with gloved hands while being undercut to allow as high a grip as possible.

With CZ reliability, engineered ergonomics and a bevy of features both familiar and new, the P-10 is the complete package.

MODEL VARIANTS:

- CZ P-10 F Optics-Ready Suppressor-Ready — 21+1 capacity
- CZ P-10 F Optics-Ready — 19+1 capacity

handguns

CZ P-07

CALIBER | 9MM

Our compact polymer DA/SA pistol, the P-07 shares all of the features of the P-09, just in a much smaller package. The same OMEGA trigger system allows users to easily swap from a manual safety to a decocker depending on their preference. With 15+1 capacity, it makes for a concealed carry firearm without sacrificing round-count.

A Picatinny light rail on the dustcover enables it to pull duty at the bedside with a light/laser and the metal 3 dot sights are easy to acquire at the range. Three interchangeable backstraps allow shooters with small or large hands to tune it to fit their grip.

The P-07 is shipped with ambidextrous decockers installed but can easily be converted to an ambidextrous manual safety with the supplied parts and instructions.

MODEL VARIANT:
CZ P-07 Suppressor-Ready — 17+1

CZ P-09

CALIBER | 9MM

For those who prefer the double-strike capability of the CZ 75 DA/SA hammer-fired system but want a polymer pistol, the P-09 is our full-size service pistol. Boasting an impressive 19+1 rounds in its flush-fitting magazine, its capacity is unsurpassed by any other service pistol.

With the versatile OMEGA trigger system, the P-09 is shipped with ambidextrous decockers installed but can easily be converted to ambidextrous manual safety with the supplied parts and instructions.

Also included are small, medium and large backstraps that allow users to customize the pistol's grip to their hand while retaining the natural point of aim that CZ handguns are known for.

With an integrated Picatinny rail, the P-09 is readily adaptable to low-light situations. The Omega DA/SA trigger provides a crisp single-action trigger break while providing the safety of a DA first-pull option.

MODEL VARIANT:
CZ P-09 Suppressor-Ready — 21+1

CZ 75 BD

CALIBER | 9MM

This model is a decocker version of the basic CZ 75 B model. The decocking lever mounted on the left side allows the hammer to be easily lowered on a loaded chamber for a safe, ‘hammer down’ carry. The CZ 75 is quite possibly the perfect pistol.

MODEL VARIANTS:

CZ 75 B 9mm — Classic CZ 75 trigger system ✓

CZ 75 BD 9mm — Decocking lever ✓

CZ 75 SP-01

CALIBER | 9MM

A stand-out as one of the most popular pistols in our extensive lineup of CZ 75 variants, the SP-01 has a reputation for shootability and reliability. Originally designed as a military and law enforcement duty sidearm, its exceptional accuracy and handling characteristics have found it a home in the world of competitive shooting. For that reason, SP-01s have risen to become the gun of choice for competitors at USPSA Production Nationals.

With an integral Picatinny-style rail on the dustcover, rubber grip panels and a set of front fiber optic and black serrated rear, the SP-01 is equally adept as a home defense firearm as it is clanging steel on a range. CZ’s two stage finish of a hardy phosphate base and the corrosion-resistant black Polycoat outer layer are built to withstand the rigors of military use, meaning holster wear and rough treatment may leave it scuffed but otherwise unaffected.

Borrowing from the improved grip geometry of the compact P-01, the SP-01 utilizes an extended beavertail to protect the shooter’s strong hand as well as allowing for a deeper and more secure grip. The grip geometry, checkering in key areas on the frontstrap and backstrap, and redistribution of mass provided by the accessory rail, noticeably decreasing the perceived recoil from standard 75 models and allowing for more rapid target acquisition and transition.

MODEL VARIANT:

CZ 75 SP-01 Tactical — Ambidextrous decocking levers

SKU	⚔️10RD SKU	MODEL	CALIBER	MAG. CAPACITY	FRAME MATERIAL	SLIDE FINISH	GRIP	OVERALL LENGTH (IN)	BARREL LENGTH (IN)	WIDTH (IN)	WEIGHT (OZ)	SIGHTS	SAFETY ELEMENTS

CZ 75 COMPACT ✓

CALIBER | 9MM

At 5" tall with a barrel length of just under 4", the compact model shaves a little more than ¾" off the length and about ½" off the height of the full-size CZ 75. This reduced size allows it to readily disappear under regular clothing, while the steel frame still makes it comfortable to shoot for extended sessions at the range. Equipped with a manual safety, it is able to be carried cocked and locked, or manually decocked for a DA first pull and SA thereafter.

CZ 75 D PCR ✓

CALIBER | 9MM

Thanks to its forged 7075 aluminum frame, the PCR weighs a full ¾ pound lighter than the 75 Compact, making it more comfortable for everyday carry. Equipped with a decocking lever, it is designed to be decocked before holstering. After decocking, the trigger safety is much like that of a double-action revolver. While there is no need to flip a safety lever off, the relatively longer and heavier trigger pull for the first round requires a conscious decision to pull the trigger before firing. Other additions to the PCR include rubber grip panels, serrated frontstrap, and backstrap for improved handling, low-drag sights, and a loaded-chamber indicator.

CZ 75 P-01 ✓

CALIBER | 9MM

The CZ P-01 is a compact, aluminum-framed 9mm designed for LE and Military duty, but its compact size and the reduced weight due to its forged alloy frame make it ideal for discrete carry as well. Equipped with a decocker, the P-01 provides convenience for those who prefer hammer-down carry. With a heavy first-round trigger pull, any additional shots are a light, crisp single action.

COMPETITION

CZ TS 2

CALIBER | 9MM

Known in the sport-shooting world for its crisp single action trigger and long sight radius, the CZ Tactical Sport has now evolved into the TS 2. Mimicking the slide profile of the Shadow 2, reciprocating weight is focused as low as possible. Paired with a redesigned frame and improved ergonomics, muzzle flip is less noticeable. Front and rear cocking serrations make slide manipulation easy and a set of fixed target sights with a fiber optic front are robust enough to withstand the rigors of competition. Aluminum grips, aggressive checkering and a healthy magwell cap it off, and the TS 2 will accept the wide variety of custom parts already available for the Tactical Sport platform.

MODEL VARIANTS:
CZ TS 2 — 40S&W

CZ TS 2 ORANGE

CALIBER | 9MM

A championship-level sport pistol developed in close cooperation with elite shooters on the CZ Shooting Team. Its parameters have been primarily optimized for competing in the IPSC Standard division and USPSA Limited division, but like other pistols in the CZ TS 2 series, it can also be used for other practical shooting disciplines.

MODEL VARIANTS:
CZ TS 2 Orange — 40S&W

CZ SHADOW 2 OPTICS-READY

CALIBER | 9MM

With the Shadow 2 reigning as the gun of choice for most competitors in Production Division, the Shadow 2 Optics-Ready is poised to do the same in USPSA's Carry Optics division. Like the standard CZ Shadow 2, the Shadow 2 OR features a finely-tuned DA/SA trigger mechanism that provides a superior trigger pull and faster reset than the vast majority of comparable competition pistols available today. The slide and frame are hand-fit for exceptional accuracy, reliability and longevity. This hand-fitting coupled with a longer sight radius and an increase in weight over the original Shadow make Shadow 2 models even more shootable, increasing shooter speed and accuracy.

MODEL VARIANTS:
CZ Shadow 2 Black/Blue — 9mm

CZ SHADOW 2 ORANGE

CALIBER | 9MM

Turning the Shadow 2 up a notch, the biggest addition on the Orange is a 1911 style barrel bushing that increases slide-to-barrel fit, resulting in tighter groups. Not as obvious is a factory-tuned trigger with short reset and the hand-fitting of the slide and frame. With many of the same great features that have made the Shadow 2 dominant in USPSA Production Division, the Orange wears a set of signature grips, mag bases and mag release button to set it apart from the standard pistols.

BUILT BY CZ CUSTOM

CZC A01-SD
OPTICS-READY

CALIBER | 9MM

Built from scratch at CZ Custom, the A01 is the evolution of the Shadow series as Angus would have done it.

The frame is the star of the show and is hammer-forged, CNC-machined, and then blued. Differing from the LD, the SD, or short dustcover, offers a balance that is more in the hand and offers quick target transitions. With a deep beavertail, undercut trigger guard, raised 25 LPI checkering, and an internal magwell, it combines classic CZ 75 ergonomics with purpose-driven features ideal for competition.

To ensure that the trigger is up to snuff, both the hammer and the sear are directly pinned in the frame to solidify trigger pull consistency. DA pull weight is from 8-8.5 lbs while SA clocks in at 3-3.5 lbs and a short reset is standard. The trigger itself is lifted from the CZ 85 Combat. The slide is CNCed from 4140 bar stock and features front and rear serrations, CZ Custom low-mount rear sight and fiber-optic front. Icing on the cake is a 4.925" Match-grade bull barrel made from 416 stainless steel.

Built for the higher capacity P-09/P-07/P-10 magazine platform, the A01-SD ships with two 19-round P-09 magazines.

Made in Mesa, AZ, USA

CZC A01-LD

CALIBER | 9MM

Built from scratch at CZ Custom, the A01 is the evolution of the Shadow series as Angus would have done it.

The frame is the star of the show and is hammer-forged, CNC-machined and then blued. Very obvious is its massively heavy dustcover which kills both recoil and muzzle rise. With a deep beavertail, undercut trigger guard, raised 25 LPI checkering and an internal magwell, it combines classic CZ 75 ergonomics with purpose-driven features ideal for competition. To ensure that the trigger is up to snuff, both the hammer and the sear are directly pinned in the frame to solidify trigger pull consistency. DA pull weight is from 8-8.5 lbs while SA clocks in at 3-3.5 lbs and a short reset is standard. The trigger itself is lifted from the CZ 85 Combat.

The slide is CNCed from 4140 bar stock and features front and rear serrations, CZ Custom low-mount rear sight and fiber-optic front.

The icing on the cake is a 4.925" Match-grade bull barrel made from 416 stainless steel.

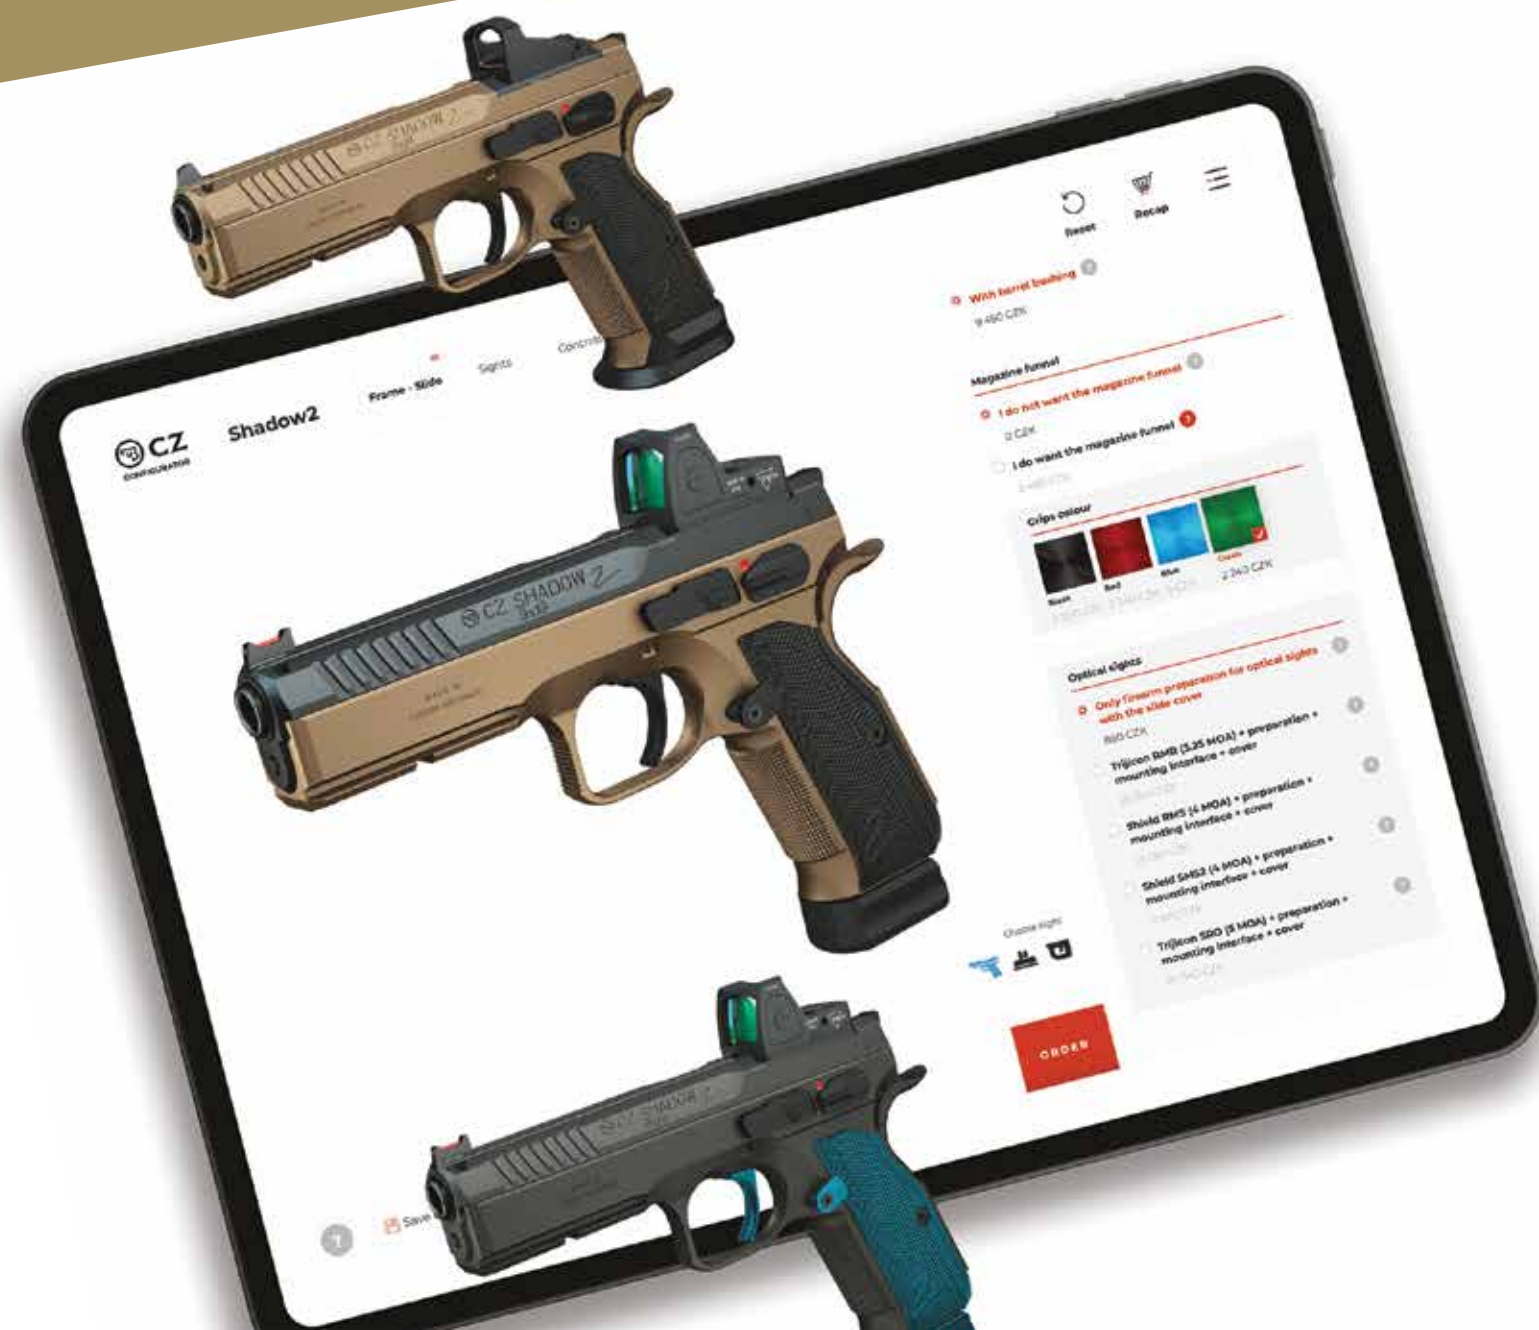

Built for the higher capacity P-09/P-07/P-10 magazine platform, the A01-LD ships with two 19-round P-09 magazines.

Made in Mesa, AZ, USA.

CONFIGURATOR

CZ CONFIGURATOR

Build your own custom firearm.

The CZ Configurator is an online tool that gives the power to fully customize and order the CZ firearm of your dreams from the comfort of your phone or computer. CZ gives complete control in the construction and accessorizing of the gun - model, caliber, colors, components, controls and accessories.

The firearm is virtually displayed on the screen as the user specifies colors, components, controls and accessories. Users can save, print and share the custom-configured firearm anytime.

**DAN
WESSON**

Dan Wesson
DAN WESSON FIREARMS®

Dan Wesson

DAN WESSON FIREARMS®

In 1968, Dan Wesson struck off on his own to manufacture fine firearms that deviated from the standard. 50 years later the company he founded is still going strong and still building unique products. Though there are many manufacturers of 1911s, not many combine custom-level fitting, top-shelf parts and clean, elegant lines like a Dan Wesson — let alone at such an attainable price.

We produce only a few thousand handguns a year, using the best components and finishes the industry has to offer. We painstakingly hand-fit and polish each and every part, creating the best possible production 1911. Even a custom pistol maker would be hard-pressed to build a gun that would outperform ours straight out of the box. No matter the model, from our entry-level Pointman series to the long-slide Bruin, we are proud to provide our customers the best bang for the buck in the industry.

All our pistols share the same match-grade components, but specific features vary by model. We challenge you to find another production 1911 in our price range that gives you everything Dan Wesson has to offer.

FEATURES

- Hand-fit 70-series frame and slide
- Forged frames, slides, and barrels
- Carry bevel treatment
- Lowered and flared ejection port
- Undercut trigger guards
- Beveled magazine well
- Hand-fit match barrels
- Hand-polished flats
- All premium components
- Zero MIM parts
- Tool steel fire-control system
- Crisp 3.5-5 lb. factory trigger job
- Two magazines
- Signature-series soft case
- Cable lock and manual

For more images and detailed feature breakdowns, visit our updated website at danwessonfirearms.com.

DWX

CALIBER 9MM

What began as an innovative idea among the brilliant minds at CZ and Dan Wesson resulted in the jaw-dropping DWX pistol, which is a grand melding between the two pistol families. Its locked breech barrel system is simple, ditching the standard 1911 link system and using CZ-style takedown via the slide stop. The easier take-down will be familiar to any hammer-fired CZ owner, as is removing the match-grade barrel due to the bushing-less barrel system that resembles a P-10 or P-09/P-07. The reliable low-cost double-stack magazines boost the capacity to 19+1 with flush bases in 9mm, and many standard 1911 parts enable gunsmiths and competitive shooters to tune the DWX just the way they like it. Sights are easily customized, using a 1911-style dovetailed sight in the front and a CZ Shadow 2 style sight cut in the rear. The swappable mag release expands upon the user configuration.

With the grip angle and contours that have made the CZ 75 a stand-out in the realm of pistol ergonomics, the DWX is a natural fit for most hands. The DWX can utilize standard grips from a CZ 75. Corresponding magwells for the TS/Czechmate series are compatible as well. With so many ways to tune and customize, the DWX is sure to shine!

DW **BRUIN**

CALIBER | 10MM

We took note of the growing demand for 10mm handguns, and we responded with the Bruin. The first long-slide 1911 from Dan Wesson, the Bruin comes with a 6-inch barrel, which allows full-power 10mm loads as much time as possible to use their powder charge. The Tritium fiber optic front sight and adjustable rear night sights make the Bruin ideal for shooting in the daytime, or in low light scenarios, taking advantage of the longer sight radius.

MODEL VARIANT:

01840 DW Bruin Black — 10mm, black Duty finish

DW **KODIAK**

CALIBER | 10MM

One of our most popular 1911 models, the Kodiak packs a punch with a 6-inch bushing-less barrel chambered in 10mm. These features give the Kodiak a longer sight radius, less felt recoil, less muzzle flip, and increased accuracy while letting full-power 10mm loads achieve their potential.

Fully adjustable sights, a rail on the dust cover for a light or laser mount, and an additional magwell give this Dan Wesson classic an edge, while an ambidextrous safety makes it easy to use for left-handed shooters. Complete with a Duty finish, the Kodiak is available in black, or a tri-tone matte grey.

MODEL VARIANT:

01853 DW Kodiak Black — 10mm, black Duty finish, bronze controls

DW **RAZORBACK**

CALIBER | 10MM

Our Razorback has always been our most popular 10mm platform. The RZ-10 is a 5" 1911 and features a serrated rib machined on the top of the slide with fixed defensive sights. We fit a match-grade, ramped barrel for use of the most popular 10mm loads and smoother feeding. The slide is mated to our standard forged frame with undercut triggerguard and smooth frontstrap. On both the frame and the slide, we polish the flats to a soft brushed finish and bead blast the rounds.

The gun is finished off with a nice set of double diamond cocobolo grips. Chambered in the powerful 10mm cartridge, the RZ-10 is a very versatile 1911 package suitable for defensive use, target shooting and handgun hunting of medium-sized game up to deer or wild boar.

DW *V-BOB*

CALIBER | .45 ACP

A commander sized variation of the Valor, the V-Bob is ideal for a quality handgun that can be utilized as a concealed carry firearm. A bobbed mainspring housing and 4.25 inch barrel condense the V-Bob, making it sleek and compact, while tapered grips, an ambidextrous safety, and a recessed slide stop add tactical value.

Our new inset serrations knock down the glare between the sights — a serrated U-notch in the rear and a tritium with a large orange ring in the front. Classic good looks come courtesy of a set of GI-style rear slide serrations.

The stainless slide and frame on V-Bobs can be had in a bead blasted finish or Black Duty finish. For folks who like both, we now have a two-tone as well that has the same stainless steel frame with a classic blued slide and small parts.

MODEL VARIANT:

- 01827 DW V-Bob — 45ACP, Forged Stainless
- 01825 DW V-Bob Two - Tone — 45 ACP

DW *VALOR*

CALIBER | .45 ACP

With quality improvements to make this Dan Wesson Valor better than ever, the new and updated Valor features a Stan Chen SI Magwell, tapered G10 grips and a tactical ambidextrous thumb safety.

The features don't stop there; the Valor now comes with an inverted rib and an updated slide stop that allows for laser grip panels. Sitting atop the slide are a serrated U-notch rear sight and a tritium front sight with a large orange ring, while GI-style cocking serrations give it a classic look. Our new inset serrations not only knock down any glare from the top of the slide — they also look great!

Complete with a stunning, stainless steel slide and frame, the Valor can be purchased with a bead blasted finish or a black, Duty finish.

MODEL VARIANT:

- 01823 DW Valor — 45ACP. black Duty finish

DW *SPECIALIST*

CALIBER | .45 ACP, 9MM, 10MM

When police departments approached us to build them a more reliable, durable 1911 to replace the ones they had been carrying, we developed a model just for them. The additions that made it ideal for law enforcement also make it perfect for home defense, so we gladly offer it for sale to the public.

A full-size 1911, the Specialist is chambered in 45ACP, 10mm, and 9mm and loaded with features to satisfy a public servant’s special requirements. The forged stainless steel slide wears our inverted top rib with a single amber tritium dot in the rear sight and a green lamp with white target ring in front.

The frame sports an integral 1913 Picatinny, 25 LPI front strap checkering, undercut trigger guard and recessed slide stop to enable the installation of laser grips. Equipped with an ambidextrous thumb safety, extended magazine release, and detachable magwell, the Specialist is operator-friendly. It is finished off with a set of G10 VZ Operator II grips that force the hand into the beavertail and hold it there.

The Specialist ships with two 8-round magazines with bump pads (10 rounds in 9mm) and is available in either a matte stainless finish or our black Duty finish, which makes for an especially hardy pistol that scoffs at everyday wear and tear.

MODEL VARIANT:

- 01808 DW Specialist Commander — 45ACP, black Duty finish
- 01809 DW Specialist Commander — 45ACP, stainless

DW *GUARDIAN*

CALIBER | .45 ACP, 9MM, .38 SUPER

A stunning firearm that combines the slide of a Commander with a bobbed mainspring housing, Dan Wesson created the Guardian. With an aluminum frame, the Guardian is the lightest 1911 in the Dan Wesson lineup, and makes a fantastic concealed carry firearm.

With wood grips and a lightweight frame, the Guardian comes with a stunning Duty finish, single-action trigger mechanism, and fixed night sights on the front and rear for a comfortable, concealable carry option.

DW *ECP*

CALIBER | .45 ACP, 9MM

Utilizing a heavy, match-grade bull barrel the Enhanced Compact Pistol is a 4" gun that conceals well but is a tack-driver at the range. With a compact, stainless steel slide and a forged aluminum frame, weight is kept to a svelte 29 oz. Our new tapered G10 grips and a bobtailed frame enhance its ergonomics, affording shooters with smaller hands an easier reach to the trigger.

A tri-topped slide wears aggressive side serrations and a top rib to knock down glare, while our new U-notch rear sight is matched to our brass-beaded front sight. The bull barrel itself is flush-cut to make for easier disassembly and has a 30 degree crown. Its recoil system uses a flat wire recoil spring. Rated for 10,000 rounds in 45 ACP, that's three times the round count of a typical 1911 dual recoil spring setup.

With a compact size that fades away when concealed and a beefy bull barrel, the ECP is an ideal 1911 for everyday carry.

DW *TCP*

CALIBER | .45 ACP, 9MM

Combining a match-grade bull barrel and our new railed alloy frame, the Tactical Compact Pistol sits in the sweet spot of concealability and shootability. The TCP for short, its compact stainless slide is tri-topped and has aggressive slide serrations. A top rib helps reduce glare and it features our new U-notch rear sight with a whopping .156" wide notch paired with our brass-beaded front sight.

Its ramped bull barrel has a 30 degree crown and is flush cut for easier disassembly. Its recoil system uses a flat wire recoil spring. Rated for 10,000 rounds in 45 ACP, that's three times the round count of a typical 1911 dual recoil spring setup.

The TCP's grips are also new, with a tapered profile that is slim at the top and full-width at the bottom, giving shooters with smaller hands an easier reach to the trigger. With three facets that mimic the distinctive slide, their serrated features encourage a high, deep grip. Our one-piece magwell, flat K-style trigger and square hammer round out the features.

All-in, the TCP tips the scales at just 32 ounces, making it an accurate pistol that's easy to carry on the regular.

DW *COMMANDER CLASSIC*

CALIBER | .45 ACP

This bobbed 1911 was brought back into production by popular demand. With an 8 round magazine capacity and a 4.25" length barrel, the Commander Classics such a tried and true essential to our lineup, it has withstood the test of time, maintaining its California legal status. With stunning brushed flats and bead blasted rounds, a stainless steel slide and frame, and wood grips, this handgun is as aesthetically pleasing as it is capable. Chambered in .45 ACP and bearing snag-free Tritium sights and a smooth, bobbed mainspring housing, this is also a great concealed carry handgun.

DW *POINTMAN*

CALIBER | .45ACP, 9MM

The Pointman series has been offered in limited quantities in the past, and demand always outpaces production capacity. Featuring our inverted rib on top of the forged slide, it has an adjustable target sight in the rear and fiber optic sight in the front, and front and rear cocking serrations. The frame is forged stainless with an undercut triggerguard and 25-LPI front strap checkering. The flats are polished to a soft brushed finish, and the rounds are bead blasted for a nice contrast. Double diamond cocobolo grips finish it off. With the lower cost of 9mm ammunition and mild recoil, this is the perfect model for getting acquainted with the 1911. Holding 9+1 rounds, the Pointman 9 shines both at the range and in competition.

MODEL VARIANT:

01943 DW Pointman 45 — .45 ACP stainless wood grips

DW *POINTMAN SEVEN*

CALIBER | .45 ACP

The Pointman Seven maintains the legacy features that originated the Pointman series such as the hand-polished flats with bead blasted rounds, front and rear cocking serrations, and smooth frame front strap.

Additional features include adjustable rear sight, target front, full-length guide rod, 25lpi, checkered, mainspring housing, and classic, double diamond, cocobolo, wood grips.

Our Pointman Seven is one of only two California legal Dan Wesson firearms.

The Pointman Seven differs from the rest of the Pointman series in that it lacks the serrated top rib, fiber optic front sight, GI guide rod, and front strap checkering.

RIFLES

CZ **RIMFIRE**

CZ **457**

If we were to pick one thing that our previous rimfire platforms were lacking, it was an American-style push-to-fire safety — something Hunter's Education instructors and 4-H shooting coaches have begged us to incorporate for years. Though that was the most obvious change, we also took the opportunity to tweak an abundance of smaller features at the same time. In addition to the receiver-mounted, push-to-fire safety, we chopped almost an inch of length from the action and slab-sided it to reduce its footprint and weight. The stamped bottom metal of the 455 is gone, swapped for a classy two-piece interlocking system. To make scope fitment easier, we ditched the 90° bolt rotation in favor of 60°, allowing for larger ocular bell diameters with lower ring heights. To top it all off, the 457 now features a trigger adjustable for weight, creep and overtravel. With the exact same swappable barrel system as the 455 and the same reliable polymer magazine system, the 457 is without a doubt the best rimfire platform we've ever fielded.

*Main features of the CZ **457***

- Push-to-fire safety
- Trigger with adjustable pull weight, creep and overtravel
- Action fully machined from bar stock
- Cold-hammer-forged, hydraulically-lapped barrel
- Detachable magazine (5, 10, 25 and single-shot adapter available in 22 LR)
- Hardy nitride finish
- 11mm dovetail milled into receiver
- 60° bolt rotation
- Interchangeable barrels
- Interchangeable stocks

CZ RIMFIRE

CZ **457** VARMINT
22 LR, 22 WMR, 17 HMR | WALNUT

The standard heavy-barreled version of the 457, the Varmint has a .866" cylindrical barrel. Not only does the heavy barrel make for good harmonics, it also allows the Varmint to perform well with a wide variety of rimfire loads, translating into an accurate platform for shooting targets or getting game. The Turkish walnut stock has an American-style comb for use with a scope and a wide, flat forend that rides a sand-bag well. Laser-cut stippling gives grip fore and aft.

MODEL VARIANTS:
CZ 457 Varmint LH — 22LR

CZ **457** VARMINT AT-ONE®
22LR | LAMINATE

Using the popular Boyd's AT-ONE® stock as its basis, this 457 Varmint variant makes an ideal trainer for the whole family. With the push of a button, length of pull can be adjusted from 12.5" to 14.25". Comb height is similarly adjustable, with 5/8" of rise available. The stiff laminate stock provides a nice, rigid platform from which to work and the 16.5" threaded heavy barrel makes fitting a suppressor easy.

CZ **457** PROVARMINT
SUPPRESSOR-READY
22 LR | BLACK-PAINTED LAMINATE

Always one of our most popular Varmint models, the Pro Varmint has a heavy 16.5" barrel threaded 1/2x28 for use with a suppressor or other muzzle device. Riding in a black-painted laminate stock, it incorporates features found on much more expensive stocks without pushing the price of the rifle through the roof. The short barrel gives plenty of time for the cartridge to get a full burn while increasing the rigidity of the barrel, resulting in a rifle that drives tacks.

CZ **457** VARMINT MTR
22 LR | WALNUT

Taking our heavy-barreled rimfire to the next level, the 457 Match Target Rifle gets a bit more attention than the average 457 Varmint. Its Match chamber is cut to the tightest specification that CIP will allow, meaning it will perform impressively well with top-tier ammo. The MTR's Turkish walnut stock is designed with ergonomics in mind, and its vertical grip has a comfortable palm swell and laser stippling for texture. A large, flat forend has dual QD studs for running a bipod and a sling, and wrap-around stippling gives much more grip for the forward hand.

CZ *RIMFIRE*

CZ *457 AMERICAN*

22 LR, 22 WMR, 17 HMR | WALNUT

The classic American-style rimfire rifle, this gorgeous 457 has a 24.8" barrel with no sights and is meant to be topped with a scope. Its Turkish walnut stock has a high, flat comb and a classic checkering pattern. Like all of our 457s, it has an 11mm dovetail milled into the top of its receiver for attaching scope ringmounts.

MODEL VARIANTS:

CZ 457 American LH — 22LR

CZ 457 American LH — 22WMR

CZ *457 AMERICAN SYNTHETIC SUPPRESSOR-READY*

22 LR, 22 WMR, 17 HMR | BLACK SYNTHETIC

This variant of our 457 American sports a newly-designed synthetic stock that borrows ergonomics and styling cues from our 557 American Synthetic. That synthetic stock, paired with the 457's nitride finish, makes the rifle near impervious to the elements. 1/2×28 threads and our especially tight chamber tolerances make this rifle an ideal suppressor host.

CZ RIMFIRE

CZ 457 ROYAL

22 LR | WALNUT

With a premium Walnut stock and decorative forend tip, the Royal definitely plays the part! Intended for use with a scope, it has a high, flat American-style comb and no sights, while its forend is especially long, giving it an attractive look that harkens back to early rimfire rifles. The Royal's 20.5" barrel is threaded 1/2x20 (a European standard).

CZ 457 PREMIUM

22 LR | WALNUT

A modern classic in the European style, the 457 Premium has all sorts of flair! Its Turkish walnut stock has a decorative forend tip with Schnabel, while its hog-back stock has a mild Monte Carlo and a cheekpiece. Its 24.8" barrel wears irons, with a tangent rear sight and a fiber optic front sight, while the muzzle is threaded 1/2x20 (a European standard).

CZ 457 LUX

22 LR, 22 WMR, 17 HMR | WALNUT

Designed in the European style, the Lux has a hogback stock fashioned from Turkish walnut. With a cheekpiece and comb ideal for use with its crisp iron sights, this 457 is one classy plinker. Like all 457s, it has an 11mm dovetail for mounting optics and can be quickly and easily swapped to a different chambering with the addition of a second barrel set (sold in our webstore). One 5-round magazine is included.

CZ 457 JAGUAR

22 LR | BEECHWOOD

For those who love a long sight radius, the Jaguar pairs our crisp iron sights with a 28.6" barrel! The rear tangent sight is easily adjusted for distances from 25 to 200 meters, and the muzzle is threaded 1/2x28 for a suppressor. With a beechwood stock ideal for open sights, it has grip stippling that follows with the Jaguar motif.

CZ 457 SCOUT

22 LR | BEECHWOOD

Built to be an ideal first gun for young shooters, the Scout has a short 12" length of pull. With simple leaf rear sight and blade front (rear adjustable for windage, front for elevation), learning the basics of sight picture has never been easier. 11mm dovetails on the receiver make adding a scope a breeze. Own a suppressor? 457 Scouts have a muzzle that's threaded 1/2x28, allowing for hearing-safe shooting without the need for muffs or plugs. As young shooters outgrow the short stock, adding a full-size stock is easy as can be. Any of our 457 stocks with a sporter barrel will fit (American, Lux, Training Rifle, etc.), and the same goes for the many barrel sets available for the 455/457 platforms. Shipped with a single shot adapter to teach ammo conservation, any of the 455/457 magazines will fit, with capacities of 5, 10 and 25 rounds.

CZ **CENTERFIRE**

CZ **600**

As part of a radical generational upgrade of its centerfire rifle product line, CZ is proud to introduce the new CZ 600 series. Its unique, highly modular design comes with a number of patented features that improve all key characteristics - reliability, durability, ergonomics, shooting comfort, safety, and accuracy. The use of state-of-the-art manufacturing materials and technologies also contribute significantly to its improved design and operation. Models for hunting, sport and hobby are available in a wide range of popular calibers.

Main features of the CZ **600** SERIES

- Controlled feeding with short extractor
- Vertical safety
- Cold hammer-forged barrels
- Durable nitride finish
- Extreme accuracy, Sub-MOA on select models
- The bolt release button allows the chamber to be unloaded without disengaging the safety.
- Lockable detachable magazine
- 60° bolt rotation
- Single-stage trigger with a 4 position adjustable trigger

600 SERIES

CZ 600 TRAIL

You'll find yourself adventure-ready with the CZ 600 Trail. This light compact rifle is packed with a full set of features that make a difference to today's marksman. The Trail features AR magazine compatibility in 223 Rem and uses CZ Bren 2 magazines in 7.62×39. In addition to a common magazine, the Trail delivers ambidextrous mag release and safety levers that will feel familiar to those used to the AR platform. The PDW-style stock is quick to deploy and allows the Trail to collapse to a very compact OAL when space is at a premium.

The ambidextrous mag release and safety levers will feel familiar to those used to the AR platform. The magazines in 223 Rem model utilize AR style mags and the 7.62×39 model uses CZ Bren 2 mags.

TWO STAGE TRIGGER WITH 4-POSITION DIAL TO SELECT A PULL WEIGHT

600 SERIES

CZ 600 ALPHA

The Alpha was designed as the rifle that can do it all and we guarantee it can get it done in sub-MOA style. The light-weight aluminum receiver balances the semi-heavy barrel for a combination that won't weigh you down while being very tolerant to a wide variety of loads. The black, fiber-reinforced stock is optimized for more modern technical shooting styles with a parallel comb, symmetrical geometry, and a vertical grip. Serrated soft-touch inserts are located in multiple grip zones throughout the stock and are much appreciated when conditions are less than ideal. The integral Picatinny rail allows the shooter to choose from seemingly endless optic mounting solutions.

ADJUSTABLE TRIGGER, 4 DIFFERENT TRIGGER WEIGHTS WITHOUT HAVING TO REMOVE THE CHASSIS FROM THE STOCK.

FIBER-REINFORCED BLACK POLYMER STOCK WITH PARALLEL COMB, SYMMETRICAL GEOMETRY AND VERTICAL GRIP

600 SERIES

CZ 600 LUX

The refined lines and traditional style of the Lux reflect a long, proud tradition of gun makers and hunters. The new comb geometry is optimized for use with both optics and the fiber-optic equipped iron sights while retaining the iconic look of the Bavarian style comb. Fish-scale checkering and a decorative forend complete the look. The Lux lives up to the expectations of its lineage. The steel receiver is drilled and tapped for Remington 700 pattern bases. The advantage of the Lux goes beyond mere aesthetics; it comes with a sub-MOA guarantee as well.

OIL FINISHED WALNUT STOCK
BAVARIAN-STYLED CHEEK PIECE AND
FISH SCALE CHECKERING

THE PATENTED, TANG-LOCATED,
VERTICAL SAFETY IS INTUITIVE.

NITRIDED STEEL ACTION WITH
REMINGTON 700 MOUNTING INTERFACE

CZ 600 RANGE

The CZ 600 Range was designed to give the precision shooter every possible opportunity to take full advantage of the accuracy of the platform. The cold hammer forged heavy barrel delivers the best accuracy guarantee ever offered by CZ. Sub ¾ MOA guaranteed at 100 meters and 5 shot group with match-grade factory ammo is verified on every CZ 600 Range we make.

The stock is equipped with QD sockets on each side, a tool-free adjustable cheek piece, and a butthook and a pic rail for monopod mounting. These competition-born features of the stock make this model the best model for achieving accuracy down range.

ADJUSTABLE TRIGGER, 4 DIFFERENT
TRIGGER WEIGHTS WITHOUT HAVING TO
REMOVE THE CHASSIS FROM THE STOCK.

SHOTGUNS

SEMI-AUTO

NEW

CZ 712 G3

Built on an enhanced soft-recoiling CZ 712 shotgun, the 712 G3 shotgun smokes clay targets and tumbles game birds like autoloaders which cost twice as much! With a classic look and performance-driven features, shooters will be able to handle both light and heavy loads making the CZ 712 G3 a great choice no matter the situation.

The new CZ 712 G3 is at home on the clay target course or in the field. Its gas-operated mechanism softens recoil and cycles 2 ¾- and 3-inch shotshells. The shotgun comes with two pistons, for light and heavy loads. Either piston accepts a wide range of shotshells within its designation. With the light piston installed, soft recoiling shotshells for target shooting can be cycled easily. While with the heavy piston installed, the CZ 712 G3 can take on even the hottest loads waterfowl hunters use.

CZ ACTIVE CHOKES
Utilizing a longer parallel section improves pattern consistency. The mid-body threads keep the choke in place.

The 712 G3's chrome-lined barrels hold up under extended firing and ensure consistent patterns through five furnished extra-long Active-Choke tubes. The CZ 712 G3's receiver and barrel wear a handsome, durable matte black finish that minimizes glare and can be paired with either black synthetic, camo, or walnut stocks.

Prudent shooters are sure to appreciate the shotgun's ergonomics. The stock features a 14 ¼ inch length of pull and a new thicker recoil pad that tames the kick from stiff magnum loads. With 1 3/8 inches drop at nose comb and 2 1/4 inches at the heel, the 712 G3 comes to cheek fast. Its 7mm ventilated rib instantly aligns the eye to target.

SEMI-AUTO

CZ ACTIVE CHOKES
Utilizing a longer parallel section improves pattern consistency. The mid-body threads keep the choke in place.

CZ 1012

The next evolution in our semi-auto shotgun line, the 1012 uses a gas-less operating system. Instead of redirecting gas from the barrel to run the action, the 1012 uses a spring within the bolt to store energy during the shotgun's recoil, spending this energy a split second later to rotate and unlock the twin lugs from the barrel extension and withdraw the spent shell.

The major advantage of this gas-less system is the less stringent maintenance schedule. Unlike gas guns that need periodic cleaning of the piston and magazine tube, the 1012's needs are vastly fewer. During our testing, we pushed 1012s to 5,000 rounds without a drop of oil or cleaning of any sort, while experiencing zero parts breakage or malfunctions. In normal use, the occasional cleaning and oiling should be more than enough.

Additionally, the gas-less system itself is tuned to run a wider variety of shells — from light-recoiling target loads up to the smoking hot 3" magnums currently on the market.

SIDE-BY-SIDE

CZ *BOBWHITE G2*

Back by popular demand and better than ever, the Bobwhite G2 is still a double-trigger gun with an English-style grip — but now with a CNCed receiver, upgraded internals, a hardier receiver finish and a price that's hard to beat.

The straight stock makes busting brush easier, and the double triggers allow for quick choke decisions when a bird busts at distance. Shipped with five interchangeable chokes, it has 28" barrels and can be had in 12, 20 or 28 gauge.

Between the straight stock and new action design, the Bobwhite is downright dainty in the smaller gauges, and in 28 gauge it's tipping the scales at just 5 1/2 lbs. Our tough black chrome finish on barrels and receiver mean this side-by-side will be less prone to rust than a blued gun. Light and rugged, it's a shotgun built to do work.

CZ *BOBWHITE G2 INTERMEDIATE*

2019 saw the introduction of our first 'Intermediate' model at the request of Pheasants Forever – the CZ Quail over/under. This year we add another mid-sized shotgun in our side-by-side line with the Bobwhite G2 Intermediate. With the barrel length of 26", it simply reduces the length of pull to 13 3/4", just enough to give teenagers and those of moderate stature a better fit.

CZ *BOBWHITE G2 SOUTHPAW*

New for 2021, the Bobwhite Southpaw is the perfect variant for left-handed shooters. The stock is "Cast-on" for or southpaw friends allowing the bobwhite line to have a model to fit every shooter.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY
06390	Bobwhite G2	12	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7.3	Manual Tang Safety
06391	Bobwhite G2	20	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7.3	Manual Tang Safety

06397	Bobwhite G2 Southpaw	12	28	5 Flush (F,IM,M,IC,C)	14 ½		45	7.6	Manual Tang Safety
06398	Bobwhite G2 Southpaw	20	28	5 Flush (F,IM,M,IC,C)	14 ½		45	7.6	Manual Tang Safety

SIDE-BY-SIDE

CZ SHARP-TAIL

With a single selectable mechanical trigger and pistol grip, the Sharp-Tail is one of the sharpest-looking side-by-sides on the market. Built around a lithe one-piece CNCed receiver, the metalwork is finished in a beautiful color case. With independent floating firing pins, coil-spring-operated hammers and redesigned sears, the result is longer life and greater consistency.

Available in 12, 16, 20, 28 and .410 with 28" barrels, Turkish walnut stocks, and a robust single extractor. 12, 20 and 28 gauges ship with five interchangeable chokes, while 16 and .410 have fixed IC/Mod barrels.

CZ SHARP-TAIL COACH

With the same slender action of the Sharp-Tail as well as its single selectable trigger, the Sharp-Tail Coach is a more modern coach gun than our hammered version on the opposite page. With a mechanical trigger and a manual safety, it has a single extractor that lifts shells for removal. Its 20" barrels are cylinder bore and it can be had in 12 or 20 gauge and will chamber 2¾" or 3" shells.

CZ HAMMER CLASSIC

A modern incarnation of the fowling piece of old, the Hammer Classic has fully-functional hammers and long 30" barrels. Built to handle modern loads, both hammer models have a true side lock frame design and 3" chambers. Dual triggers and color case finish round out the look, and five flush interchangeable chokes lend modern functionality.

CZ HAMMER COACH

The chopped-down version of the Hammer Classic, the Coach is popular with Cowboy Action shooters who want a period-correct firearm that can handle modern loads. With fully-functional hammers and dual triggers, short 20" barrels, color case finish and cylinder bore barrels, the Hammer Coach will dish out birdshot, buckshot or slugs up to 3" in length — take your pick!

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY
06401	Sharp-Tail	12	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7.3	Manual Tang Safety

06417	Sharp-Tail Coach	12	20	5 Flush (F,IM,M,IC,C)	14 ½		37 ½	6.7	Manual Tang Safety
06131	Hammer Classic	12	30	5 Flush (F,IM,M,IC,C)	14 ½		47 ½	7.5	Manual Tang Safety
06130	Hammer Coach	12	20	5 Flush (F,IM,M,IC,C)	14 ½		37 ½	6.7	Manual Tang Safety

OVER/UNDER

CZ *DRAKE*

There is no doubt in our minds that the Drake is the best bang for the buck in the over/under category. Built on our one-piece CNCed receiver, the Drake has a single selectable trigger, meaning you can choose whether to fire top barrel or bottom barrel first. With a simple, robust extractor to lift spent shells, the Drake sheds some weight with a mid-rib delete.

The Drake can be had in 12, 20, 28 or .410 chamberings, all fitted with Turkish Walnut furniture with sharp laser-cut checkering that sticks them in the hand. With 28" barrels and five interchangeable chokes (except for .410, which has fixed IC/Mod barrels), the Drake ships in a protective plastic hard case.

MODEL VARIANT:

CZ Drake Southpaw — Cast on for left-handed shooters, 12 or 20 gauge

CZ *QUAIL*

Nearly identical to the Drake, what sets the Quail apart is a 13 ¾ length of pull that makes it more comfortable to carry and shoot for youth shooters and hunters. The mid-rib delete trims a noticeable amount of weight from the muzzle end, making it easier to shoulder and swing.

Chambered in 20 gauge and fitted with 28" barrels, the Quail comes in at a very respectable price point, making it a much more attainable investment than most similarly-equipped youth shotguns.

Once broken in a bit, extractor guns tend to be substantially easier to open than their ejector counterparts, and this gun is no exception. A single extractor lifts spent shells from the chambers, and the shotgun ships with five interchangeable chokes.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY
06092	Drake	12	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7	Manual Tang Safety
06093	Drake	20	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7	Manual Tang Safety
06413	Drake	28	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	7	Manual Tang Safety

06483	Quail	20	28	5 Flush (F,IM,M,IC,C)	14 ½		45 ¾	6.3	Manual Tang Safety

OVER/UNDER

CZ REDHEAD PREMIER

A mainstay in our lineup, the Redhead Premier is truly an all-purpose shotgun. Auto-ejectors propel spent shells from the chambers, and a solid mid-rib gives it a classy look and a more deliberate swing. Equally at home on the sporting clays course or in the field chasing roosters, its wrap-around checkering provides plenty of purchase.

Available in 12, 16 and 20 gauges, the Redhead is fitted with either 26" or 28" barrels with a classy white bead atop the rib. A single selectable trigger and five flush mount chokes are included in its hard protective case.

MODEL VARIANT:

CZ Redhead Premier Reduced Length — 20 gauge with 24" barrels and 13" length of pull

CZ WINGSHOOTER ELITE

One of the classiest shotguns in its price range, the Wingshooter Elite has faux sideplates that are ornately hand-engraved, reminiscent of our custom-grade guns that cost much more. It carries all of the best features in our over/under line, with our one-piece CNCed receiver, single selectable trigger, solid mid-ribs, ejectors and a two-tone hard-chromed finish. Add to that laser-cut checkering, a pistol-grip stock and a white bead, and it's hard to find a more elegant shotgun for the money.

Available in 12 and 20 gauges with 3" chambers, selectable 28" barrels, Turkish walnut stocks, independent auto ejectors and 5 flush-mount choke tubes.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY

06456	Wingshooter Elite	20	28	5 Flush (F,IM,M,IC,C)	14 ½	X	45 ¾	6.9	Manual Tang Safety

OVER/UNDER

CZ *REAPER MAGNUM*

With 3 1/2" chambers, short barrels and a camo finish, the 12 gauge Reaper Magnum is built to slay turkeys! Offering what single-barrel turkey guns cannot, this magnum shotgun allows a hunter to equip two vastly different chokes, allowing the choice of short range or long range constriction with the flip of the barrel selector switch. Shorter 26" barrels make it more maneuverable in the woods or blind, while the top removable Picatinny- style rail makes adding an optic easy as can be. Polymer stocks clad in camouflage help it blend in, and adding a sling is simplified with swivels front and back. The Reaper Magnum ships with five extended interchangeable chokes, including an extra full.

CZ *SWAMP MAGNUM*

If you ask Bruce Horrell, host of CZ-USA's Gun Dog TV, why he shoots 3 1/2" shells, he'll answer, "Because they don't make 4 inch." For the folks who want to dish out the heat on waterfowl, we've got the over/under to do it with.

The only over/under in our line that has an automatic safety, it engages every time the action is opened, giving an added level of safety to the duck blind. The hardy polymer stock will take a beating much better than wood — an inevitability in waterfowling. This 3 1/2" chambered 12 gauge has 30" barrels and was born to knock big birds from the sky.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERAL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY

shotguns

ALL-TERRAIN

The All-Terrain series includes a couple key features that set it apart from the rest of our shotguns. All come clad in OD Green Cerakote sporting hardy Turkish Walnut Furniture, factory installed sling studs and break action models include magnetic chambers- allowing you to open the gun and not have the shells fall out, perfect for the duck blind or upland field.

CZ 1012 ALL-TERRAIN

The only semi-auto in the bunch, the 1012 All-Terrain combines our hardy and reliable gas-less action with a robust ceramic Cerakote finish. With sling swivels and extended chokes, it makes an excellent all-around hunting shotgun, easily slung while carrying decoy bags or trekking in to a turkey spot.

CZ DRAKE ALL-TERRAIN

Built on our most affordable over/under platform, this Drake is all business. Without some of the flairs of our other shotguns, it has a robust single extractor, mid-rib delete and a few little hand-engraved touches. A single selectable trigger allows the user to choose which barrel fires first, and five extended chokes give plenty of control of shot constriction.

CZ REDHEAD PREMIER ALL-TERRAIN

With a bit more flair than the Drake above, the Redhead Premier All-Terrain has auto ejectors that kick empty hulls out of the action, more hand-engraved embellishments on the action and a solid mid-rib that adds a little weight and a classy look while giving the gun a smoother swing.

CZ UPLAND ULTRALIGHT ALL-TERRAIN

The lightweight in the crew, the Upland Ultralight All-Terrain incorporates features that have long made the Upland Ultralights favorites of bird hunters who put on the miles. With an aluminum action, mid-rib delete and hollowed-out butt stock, this shotgun shaves some key ounces, meaning it doesn't weigh you down in the field.

PUMP ACTION

CZ 612 FIELD

Simple, strong and smooth, the 612 Field is designed to shoot everything from targets to turkeys. With dual action bars and an aircraft alloy receiver, the Field wears a Turkish walnut stock with an oil finish that's easy to touch up through the years. Fitted with a 28" barrel with a brass bead, metalwork is a matte blue.

Chambered for 2¾" and 3" shells and supplied with three chokes, it's the hardest-working shotgun in our line.

CZ 620 FIELD SELECT

We put together the ideal shotgun for people looking for a stylish, portable pump gun. This 20 gauge has a select grade of Turkish Walnut and a deep glossy blue finish. It is constructed on a gauge-specific 7075 aluminum action. A set of interchangeable chokes lets you tune constriction and the full forend and pistol grip help make this lithe shotgun feel good in the hands. With a 28" barrel, the 620 clocks in at just 5.4 lbs, lightening the load for those full days chasing birds. The 620 is chambered for 2 3/4" shells.

CZ 628 FIELD SELECT

For those who want a light, classy pump gun to carry in the field, we put together the perfect shotgun. Built on a gauge-specific 7075 aluminum action, this 28 gauge has a deep glossy blue finish and select grade Turkish Walnut. A set of interchangeable chokes lets you tune constriction and the full forend and pistol grip help make this lithe shotgun feel good in the hands. With a 28" barrel, the 628 clocks in at just 5.4 lbs, lightening the load for those full days chasing birds. The 628 is chambered for 2 3/4" shells.

CZ 612 MAGNUM TURKEY

The 612 Magnum Turkey was created for the turkey woods and is finished in camo to match. This pump gun comes equipped with two chokes, one extra-full to deliver maximum pellets to the kill zone and one modified for upland hunting and steel shot.

Available in 12 gauge with a 26" barrel, the Magnum Turkey has camo-dipped polymer stocks and will chamber 2¾", 3" and 3 1/2" shells.

CZ 612 MAGNUM WATERFOWL

Built for the goose blind, the 612 Magnum Waterfowl boasts the perfect waterfowl camo pattern combined with a 3½" chamber for magnum shotshells. This machine is the best tool for making big birds fall from the sky. The 612 Magnum Waterfowl ships with 5 extended black choke tubes.

Available in 12 gauge with a 28" barrel, the Magnum Waterfowl is hydrodipped in camo and will chamber 2¾", 3" and 3 1/2" shells.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY

COMPETITION

CZ *ALL-AMERICAN*

A purpose-built target gun, the All-American is packed with features that make it excel at busting clays and the rigorous shooting schedule of competition. Available in 30" or 32" barrel lengths, it features lengthened forcing cones and porting to reduce recoil. A wealth of adjustable features help tune the fit to its owner, with an adjustable length of pull (14 1/2" to 15 1/2"), 4-way adjustable parallel comb, toe in/toe out and an adjustable reach to the trigger (with 3/8" of adjustment). Premium internals include firing pins that ride in bushings, drop-in locking blocks and replaceable hinge pins for as the round counts climb and the gun loosens up. A mechanical trigger and manual safety increase reliability, and five extended, knurled chokes allow for quick constriction changes on the course.

CZ *ALL-AMERICAN SINGLE TRAP*

A single-shot version of the All-American above, the Single Trap combines all the adjustability of its predecessor with a handful of improvements for the sport of singles trap. It is a dedicated singles gun, with a correspondingly shorter action (so sadly it doesn't accept standard All-American barrel sets). With available barrel lengths of 32" and 34", all are ported and have a wide beavertail forend, high rib and a small white mid-bead with a large white front bead. Built for high round counts, it also features drop-in locking blocks and replaceable hinge pins.

CZ *ALL-AMERICAN TRAP COMBO*

For those shooters who need a versatile competition gun, this All-American is ideal for trap singles, doubles and sporting clays. With two included barrel sets, it can be fitted with the 32" double barrels or the 32" unsingle barrel with its dial-adjustable rib (from 100% high down to 50/50). All barrels have lengthened forcing cones and porting to reduce recoil. Just like the standard All-American, this variant has heaps of adjustability — length of pull (14 1/2" to 15 1/2"), 4-way adjustable parallel comb, toe in/ toe out and an adjustable reach to the trigger (with 3/8" of adjustment). A wide array of chokes are included, and the same premium internals and replaceable parts ensure that this shotgun can stay in the game as it racks up rounds.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY

COMPETITION

CZ *REDHEAD PREMIER TARGET*

The Redhead Premier Target is assembled like the standard Redhead Premier but with a different purpose in mind — it's designed to crush clay targets, plain and simple! It comes fitted with a special Monte Carlo stock that keeps the gun on your shoulder while keeping your head up to see the clays. Add to that a healthy right-hand palm swell, 30" barrels and a stepped rib designed for rising trap targets — it's the perfect choice for those wanting to own a true target gun at an affordable price. Shipped with a set of black extended and knurled choke tubes, the Redhead Target has laser-cut checkering and a 1-piece CNCed receiver. This target gun can be had in 12 or 20 gauge.

CZ *SHARP-TAIL TARGET*

This new target side-by-side carries all of the mechanics as the Sharp-Tail but with a 30" barrel and a 14¾" length of pull. Originally designed to tackle side-by-side sporting clays events, it is a classy double gun that doesn't carry the accustomed weighty price tag. Equipped with a set of extended, knurled black choke tubes, it's the perfect choice for a clay shooter or gentleman hunter.

CZ *612 TARGET*

One classy pump gun, the 612 Target is fitted with Select grade wood in a glossy oil finish while the metalwork gets a deep polished blue. With a factory-tuned trigger system, raised rib and comfortable Monte Carlo stock, it's ready to kill some clays. An assortment of stock shims help users adjust drop and cast to achieve a better fit, while a set of three extended chokes and a pair of white beads round out the package.

SKU	MODEL	GAUGE	BARREL LENGTH (IN)	CHOKES	LENGTH OF PULL (IN)	EJECTOR	OVERALL LENGTH (IN)	AVERAGE WEIGHT (LBS)	SAFETY
